

Brief City News

PERSONAL MENTION.

J. L. Kite, representing the M. & O. Clear company of Denver, is in the city calling on the Bisbee tobaccoists with a fresh supply of his goods. Jud O. Lewis, in charge of the Greene interests at Patagonia, is in the city on a business mission.

Attorney Frank Goodbody will remain in Tombstone over Sunday with his family.

Architect F. C. Hurst left last evening for Hereford, where he goes to confer with Col. W. C. Greene in the matter of the latter's new home to be erected at that place. The edifice will be a model residence and is to cost \$10,000.

Col. J. W. Powell, general manager of the Cole interests in this section, returned last evening from Cananea, where he has been on a visit of inspection to the Cananea Mining district.

General Manager Walter Douglas, of the Copper Queen Consolidated Mining company, left last evening for a short business visit to El Paso.

Ben Williams, former superintendent of the Copper Queen properties, was an outbound passenger last evening for El Paso.

H. E. Stone, the Douglas real estate man who has been spending the past few days in Bisbee, returned to the Smelter City last evening.

Ex-Captain Burton C. Mossman passed through Bisbee last evening for Kansas City. Mossman has been at Cananea in consultation with W. C. Greene with regard to the latter's cattle interests.

Mr. and Mrs. Thomas Collins are in the city quartered at the Copper Queen hotel. Mr. Collins has been at Cananea, where he has been on mining business. Mrs. Collins came up from Douglas to join her husband here.

BACK FROM PINTO.

Al Godfrey, who some days ago went to Globe for the purpose of looking over the Pinto Creek district, in which he is interested in a mining vein, returned to the city yesterday. Godfrey reports that all has been said of the possible future greatness of this district has been exaggerated. In the least, he says that a method of activity characterizes business in the Globe field and that the outlying districts are coming in for the greater part of the attention of mining men.

EDWARD WILLIAM RINEHART.

Edward William Rinehart, the four-months-old son of Mr. and Mrs. C. E. Rinehart of this city, passed away yesterday at the family home on Oak avenue. The child has been ill but a short time and his death comes as a severe blow to the bereaved parents. Interment will be at Evergreen cemetery this afternoon at 2:30. Mr. and Mrs. Rinehart have the sympathy of the community in their loss.

BROADBODD IS HERE.

J. B. Broadbudd, for some time associated with the jewelry house of C. M. Henkel, but now traveling representative of a New York jewelry house is in the city on one of his regular trips. Broadbudd now makes his headquarters in Denver, but retains some of his business interests here. He will remain in the city about a week.

ARRANGEMENTS FOR DANCE.

The entertainment committee of the Irish Nationalists has been busy during the past few days making arrangements for the big ball which is to be given by the society on the 18th of March in honor of St. Patrick, the patron saint of Ireland. It is customary to give the dance on the 17th, the saint's feast day, but on account of its falling on Sunday this year, it was necessary to defer the celebration until the following day. The committee states that they have every assurance that the affair this year will partake of the same full measure of success that it has in years gone by, assurances being obtained already that there will be an attendance of about 400.

ST. DAVIDS PROSPEROUS.

J. N. Curtis, one of the prominent ranchers of the St. David Valley, who has extensive property interests here, returned to his home at Curtis last evening after spending several days in Bisbee. Mr. Curtis reports that the farms of the St. David district are prosperous and that all are looking forward hopefully to the successful irrigation of that part of the valley by artesian wells when, he states, farming will be carried on on a large scale.

MAHLOW PINCHED COIN.

Herman Mahlow, a prospector who has made Bisbee his headquarters for a number of years, was the defendant in a criminal suit brought against him in Justice Burdick's court yesterday, he being charged with the unlawful appropriation of \$7.00 left in his keeping by one of the men whose shelter he has been enjoying for some time. Charles May and his partner have been harboring Mahlow whenever he came to town. Mahlow has been in the habit of borrowing money from one or the other of these men as he needed it. A few days ago May left the room for a short time and left with Mahlow for delivery to his partner \$7, which was his share of the room rent. Mahlow instead of turning over the money to May's partner, kept it for his own needs, telling the other man that May would appear and square up at a later date. Justice Burdick gave Mahlow the option of settling up the account or going to jail. He succeeded in making good the amount he had appropriated, besides a fine of \$15 which the court imposed.

VOCALIST LEAVES BISBEE.

Edgar Keith, accompanied by Mrs. Keith, both of whom have been on the regular staff at the Iris Theater, left yesterday for Globe where they will appear at the opening of The Iris Theater in that city tomorrow night. Mr. Keith made a decided hit at The Iris during his engagement here, and his return will be looked forward to with delight on the part of theatergoers of Bisbee. The Keiths will be in Bisbee from time to time as they have been engaged to appear on the eighth theater circuit being planned by Messrs. Marks, Tupper & Rice who now own amusement houses at Bisbee, Canaboe, Mr. Keith's place will be filled temporarily by Mrs. J. J. Harrington, well known to lovers of music in this city.

DR. BRODERICK RETURNS.

Dr. D. E. Broderick, who has been in the east for the past few weeks, returned to the city yesterday. Accompanying the doctor were Mrs. Broderick and their young son, born a few months ago at Kansas City where Mrs. Broderick has been stopping with relatives since that momentous day. With the exception of the younger Broderick, the doctor reports that his health and that of his family has been perfect. He will resume the duties of his practice at once.

CHILD BLOWS OFF FINGER.

Frank Blackburn, the small son of Mr. and Mrs. E. F. Blackburn, met with a painful though not serious injury yesterday when he was playing with some percussion caps, and accidentally discharged one, tearing the thumb and forefinger from his right hand. The boy had evidently been playing around some one of the shafts and picked up some of the caps, not knowing the danger of playing with them. He accidentally hit one with a stone to hear it make a noise, and the result of the explosion was as given above. This is about the sixth accident of this kind which has occurred within the last few months.

RETURNS TO DOUGLAS.

H. E. Stone, the prominent Douglas real estate dealer, who has been in the city for the past couple of days on business connected with a local corporation in which he is interested, was a passenger outbound yesterday morning for his home. The company of which Mr. Stone is one of the promoters is placing the Douglas separator on the market, and up to the present time the Smelter City broker says the crowd has met with gratifying success.

SPUR TO DENN.

Actual work on the Denn spur was started yesterday. The greater part of the teams of the contractor are on the ground and it is promised that the dirt will fly in record time to complete the tracks from the main line of the Southwestern to the Denn. Ore will be shipped to the Douglas smelters within the next thirty days.

HE HAD THE FIVE.

A Mexican laborer named Jose Aenas was before Justice Hogan yesterday on a charge of drunkenness. The usual option was given him of serving five days on the chain gang or paying into the city coffers the regulation fine of \$5. He acknowledged his guilt and paid the money.

Paine Says—The house at Lansing, Mich., based an amendment to prevent mining companies from owning stock in other mining companies, which is aimed at the Calumet & Hecla contract of Osceola.

GOV'T SHOULD HAVE CONTROL OF DIPPING

Mulhall Says System of Dipping Cattle Is Not Thorough Nor Regular.

WASHINGTON, D. C., March 7.—Colonel Zach Mulhall, live stock agent for the Frisco and Rock Island railroads, is in Washington. Mr. Mulhall was at the capital today, calling on St. Louis representatives and spending some time in Representative Barthold's committee room. He stated that he was here on his annual visit to the department of agriculture to enlighten himself with reference to quarantine regulations against Texas cattle and to ascertain just what is necessary to comply with the latest regulations on the subject. Each year since the battle against the cattle tick has been in progress the quarantine has been steadily pushed southward in Oklahoma and the Indian Territory. The Texas Cattle Raisers' association will hold its annual meeting at Fort Worth the third Tuesday of March, and Colonel Mulhall wants to be able to tell its members what will be necessary about dipping the cattle that are shipped northward for feeding.

"On account of the drought in San Antonio and vicinity," said Colonel Mulhall, "the shipments of cattle to the territories will be heavier than usual this spring. The cattle could not be fattened and must be sent to grass in Oklahoma and Indian Territory. I estimate that there will be 350,000 head moved to these territories and to Kansas."

Speaking of the "dipping" process, Mr. Mulhall gave it as his opinion that it should be controlled by the government if it is to be done properly and the cattle tick eradicated, placing the under government control the same as cattle inspection is now at the packing houses. He says there is not system and regularity enough in the business as at present conducted by private parties and the railroads. There are dipping stations at Fairfax, Red Rock, Sapulpa, Muskogee and Vinita. All save those stations on the Katy railroad are run by private parties.

Colonel Mulhall will call on President Mulhall before leaving Washington.

TESTER & HICKS. Brokers.

Bisbee, Ariz., March 8, 1907. The market acted nervous and unsettled all day. Owing to the tightness of money and unsettled conditions locally, there was considerable liquidation. There were more stocks offered than the market could stand for, resulting in lower prices. Calumet & Arizona declined three points. North Butte sold at 10.25, closing at 10.25. Coalition is also weaker. Denn was again the feature and took a sudden drop to \$60.00; the Denn Mining closed at \$15.50 bid. Superior & Pittsburg also sold off, closing at \$24.25. American holds around \$17.00, while Warren is offered at \$13.75. Shattuck was traded in at \$40.50. Sales in Wolverine & Arizona were made at \$3.28. Butte & Arizona closed at \$2.20. Reports from this property are to the effect that another body of high grade ore has been struck.

	Bid.	Asked.
Calumet & Arizona	\$173.00	\$175.00
North Butte	103.12	103.12
Coalition	22.00	22.00

Davis Daily	17.25	17.50
Helvetia	13.75	14.25
Nevada Consolidated	18.00	18.50
Money	5-12	per cent

At the Calumet and Arizona smelter a large amount of material has arrived for the construction of the new machine shops, for which foundations were completed several weeks ago. It is known that there is to be great changes and enlargements at the C. and A. during the present year. A new steel building will be erected for the accommodation of the machine and blacksmith shops. As soon as this building is ready to accommodate these shops the powerhouse is to be enlarged and the old original powerhouse is to be torn away to make room for additional furnaces. It is understood that the improvements and enlargements at the C. and A. for the present year will cost not less than \$200,000. The production at the Calumet and Arizona smelter in February did not vary much from that of the preceding month.

As yet there has been no definite statement given out about the coming reduction plant for the Shattuck Arizona to Douglas, though we believe that there is no doubt that the Shattuck people will build their smelter in Douglas when they decide on its erection. The Shattuck is now shipping regularly to the Copper Queen smelter. Mr. Shattuck and others interested in the company at Bisbee are now in Michigan to attend the annual meeting of the company and also of the Denn, and general expectation is that after these annual meetings at Canaboe there will be some definite announcement concerning the reduction works for these properties. The general belief is that the building of the Shattuck smelter will be under way during the present year.

GREENE GOLD MAKING GOOD PROGRESS

(Continued from Page Six.)

from El Paso to a connection on the Harriman line, and construction work is actively under way upon this road, which will cross through our properties from east to west, while the bulk of the mining city, Mexico & Orient road from Minera to Bocoyna and Topolobampo is opening up a rich mining country to the south. Every additional road that is built, affording cheaper transportation to the section, adds millions of dollars to the value of our properties.

Large Holdings.

"I have taken the ground that the foundation of success for an industrial company was to obtain the raw material first, and with this end in view, have secured for our company the largest holdings of gold, silver, copper and lead mines, of coal, of iron and timber, of any mining company now operating in the world."

"We have built 150 miles of wagon roads, through the heart of the Sierra Madre country connecting our mines with each other and with the railroad. We have secured for our company the largest holdings of gold, silver, copper and lead mines, of coal, of iron and timber, of any mining company now operating in the world."

"We are increasing our production capacity rapidly, and upon the completion of the Navidad mill, will have an additional 300 ton capacity; while plans are now being prepared for another 500 ton cyanide plant, adjoining the Concho mill, purchased by us of McKinnon's Corvina Company."

Concentrating Ores.

"It is the present intention of the management to concentrate reduction of ores for the present upon the Navidad-Concho group until our plant has a capacity of treating from 1,500 to 2,000 tons per day; this property being the most accessible and affording best opportunity for rapid development."

"Upon the camp, Santa Brigida, Cerro Boluda, Trinidad Mulatos and Guaymas properties, mine development work is being pushed, but our activities there will be confined solely to blocking out ore."

"At camp, the mills will be closed down, pending the completion of the long tunnel now being run, when the plants there will be charged with the cyaniding process which has been practiced there in the past, our experience having shown that the ore at that camp can be treated to very much better advantage by the cyanide process."

Electric Power Plant.

"Surveys are being made for the installation at Navidad of an electric power plant, there being ample water power available for that purpose. This will effect a further great saving in mining and reduction costs, which now aggregate about five dollars per ton."

"Our present net earnings on the ores which we are treating are several times greater than the amount required for paying the dividend on the entire 300,000 shares of preferred stock authorized. And our ore veins are developed to a sufficient extent to guarantee dividends on our preferred stock for many years to come."

"The proceeds of the sale of preferred stock offered will be devoted to the payment of balance due upon purchase price of properties still unpaid and to increasing our productive capacity. Upon this being done, our company will earn a net amount far in excess of that needed for paying the dividend on the preferred stock, but also upon all of the common stock of the company."

Plenty of Raw Material.

"Like the United States Steel Corporation, the Amalgamated Copper Company, the Greene-Cananea Copper company, the Calumet & Hecla and the other large mining companies who have made a large amount of money for their stockholders, we own large extent of mining territory; we have the raw material, and with their development, large profits will accrue, not for one year or two years, but for generations to come."

"I can confidently assert that, with a full knowledge of the conditions and with the significance of the statement that I now make within a few years the Greene Gold-Silver company alone produce more gold values from the mines owned by it than the entire amount of gold now produced in the Republic of Mexico. We have the largest bodies of solid quartz running from ten to twenty dollars per ton, now known to the mining world, excepting the Rand in Africa; and, while the Rand is divided up into two hundred or more different companies, the Greene Gold-Silver company has over sixty miles of this gold bearing zone in one holding."

"The directorate of the company is composed largely of the same men who have been associated with me in bringing the Cananea mines from a capitalization of \$10,000 to \$50,000,000 (the present issued capital of the Greene-Cananea Copper company) and selling on the market for more than half a year, within eight years, and we have pursued the same policy of getting mines first, then developing them as rapidly as possible; and I can assure you that in my belief within a few years that in my belief within a few years the Greene Gold-Silver company will be making larger net earnings than what the Greene Consolidated Copper company has made in the past, and that it will be enabled to pay much more than 8 per cent upon not only its preferred stock, but upon its common stock. This is a strong statement but I know that the value is in the mines; that we have the capital to provide the necessary facilities for extracting and that we can command the talent to carry on their further development to the stage I have mentioned."

"Now that Dr. D. Ricketts has taken over the active management of the Greene-Cananea Copper company I shall be enabled to devote more of my resources and attention to the development of these mines and it is my ambition to make of the Greene Gold-Silver company the largest producing gold-silver mines of the world."

Japanese Expert.

M. Hoga, a famous mining expert, is here from Tokyo to spend several days examining properties of the camp in order to add to his information and ability in the conduct of mining operations in his home country. Mr. Hoga states that the Cananea operation is world-wide and that everywhere it is spoken of with great admiration as the greatest copper camp of the day and is generally considered as possessed of unlimited future possibilities.

WANT ADS and Announcements

WANTED to buy for cash, three or four room house. Must have it quick to deal. Haigler, Antlers Building. Phone 456.

WANTED—Watch repairing: work guaranteed. Turner, 25 Main st.

WANTED—Middle-aged man to deliver poultry and eggs. Call 64 Main street.

WANTED—District managers and local agents for Accident & Health Insurance. Good pay for part or whole time. Continental Casualty Co. 1208 Michigan Ave., Chicago, Ill.

WANTED TO BUY—Second-hand refrigerator. Must be reasonable. Answer Junction Drug Co.

WANTED—A middle-aged lady of refinement, unincumbered, pleasant disposition, competent and reliable, wishes position as housekeeper or chamber work, 555-Care Review.

WANTED—A first-class room in good locality by young professional man. Address A. B. care Review.

WANTED—Young girl for housework. Family of two. Address P. O. Box 281, Lowell, Ariz.

FOR RENT—Two front rooms, partly furnished for light housekeeping. Mason Hotel, Lowell.

FOR RENT OR SALE—Small boarding house, 57 Naco Road.

FOR RENT—3-room house, furnished. Enquire Naquin Furniture & Mercantile Co.

EXPERIENCED NURSE—City references. No. 12 Upper Lowell.

FOR RENT—Two or four furnished housekeeping rooms. Call No. 26 Clawson Hill. Mrs. J. E. Harris.

FOR RENT—Three room cottage furnished. 33 B. O. K. Hill.

PROPOSALS FOR CONCRETE ARCH CULVERTS, NACO ROAD.

Sealed proposals are hereby invited by the City of Bisbee for the construction, at points to be designated by the City Engineer, of three CONCRETE ARCH CULVERTS, Naco Road, in said city, according to plans and specifications now on file in the office of the city clerk.

Said proposals will be received at the office of the City Clerk until Friday, March 8, 1907, at 8 o'clock p. m., to be then opened, and must be in a sealed envelope endorsed, "Proposals for Concrete Arch Culverts, Naco Road" and must be accompanied by a certified check for 10 per cent of the amount of bid.

The city reserves the right to reject any or all bids.

C. W. HICKS, City Clerk.

Dr. McSwain has diplomas from this country and Europe and the medal of the International Medical Congress. He cures lung, liver, kidney, blood and skin diseases and gives free examination at the Letson block.

ARTICLES OF INCORPORATION

of the J. A. Hoover & Company.

KNOW ALL MEN BY THESE PRESENTS, That we, J. A. Hoover, F. R. Harrington and Fred Sutter, citizens of the United States, do hereby voluntarily associate ourselves together for the purpose of forming a corporation under the laws of the Territory of Arizona, and we hereby certify, acknowledge and adopt the following articles of incorporation:

ARTICLE I.

The name of this corporation shall be and is, "J. A. Hoover & Company."

ARTICLE II.

The principal place of business of this corporation shall be in the City of Bisbee, Cochise County, Territory of Arizona, and this corporation may have and establish such other branch offices at such other places as the Board of Directors of said corporation may from time to time select.

ARTICLE III.

The general nature of the business and enterprise proposed to be transacted and carried on by this corporation shall be and is as follows:

To engage in and carry on a general brokerage and commission business, to buy, sell and trade in stocks, bonds, mortgages and other personal property on commission or otherwise, to acquire, own, locate or lease lands and real estate of every nature and description, add to, sell and dispose of the same, to sell its own stock and to purchase, own and acquire and deal in the same and in the stock of other corporations in every manner; to sell, transfer, pledge, mortgage or otherwise convey and dispose of and all of the lands and other property rights and privileges of this corporation, both real and personal property; to lend money and take mortgages on both real and personal property as security therefor, and generally to do all and all business and things incident to the business aforesaid and not contrary to the laws of the Territory of Arizona.

ARTICLE IV.

The amount of the capital stock of this corporation shall be Fifty Thousand Dollars (\$50,000), divided into Five thousand shares (\$10.00) of the par value of One Hundred Dollars (\$100) each; the time when and the condition upon which the said capital stock shall be issued and paid for shall be as fixed and regulated by the Board of Directors of this corporation, and when fully paid for shall be unassailable. In the discretion of the Board of Directors and in the absence of actual fraud, said capital stock may be issued as fully paid for less than par, and in exchange for property conveyed or transferred to said corporation.

ARTICLE V.

The existence of this corporation shall begin immediately after the recording of these articles of incorporation in the office of the County Recorder of said Cochise County, Arizona, and the filing of said articles of incorporation in the office of the Territorial Auditor of said Territory, and shall continue for a period of twenty-five (25) years thereafter.

ARTICLE VI.

The affairs of this corporation shall be conducted by a Board of Directors, consisting of not less than three persons, who shall be shareholders of the stock of this corporation.

The first directors of this corporation shall be J. A. Hoover, F. R. Harrington and Fred Sutter, who shall hold office until the election and qualification of their successors at the first annual meeting of the stockholders, which annual meeting shall be held each year on the third Monday in February of each year at 2 o'clock p. m. at the office of said company in the said City of Bisbee.

The Board of Directors shall have power to fill any vacancy in their number at any time.

The officers of this corporation shall be a President, Vice-President, Secretary and Treasurer, and such other minor officers as the Board of Directors may from time to time deem it expedient to have.

More than one of said above mentioned officers may be held by one and the same person. The above named officers for the first term, and until their successors are elected and qualified, shall be elected by the stockholders and shall hold office from the date of their election until the next annual meeting of the stockholders, and thereafter such officers shall be elected annually by the Board of Directors from their own number at their first meeting following the annual election of said Board.

ARTICLE VII.

The highest amount of indebtedness or liability to which this corporation is at any time to be subject shall not exceed Thirty-Five Thousand Dollars (\$35,000.).

The Board of Directors shall adopt By-Laws for this corporation which may be repealed or amended at any time by said Board, or by a two-thirds vote of the stock at a regular stockholders meeting.

ARTICLE IX.

The private property of the stockholders and officers of this corporation shall be exempt from all liability for the corporate debts of this corporation.

IN WITNESS WHEREOF, we have hereunto set our hands and seals this 20th day of February, A. D. 1907.

J. A. HOOVER, (Seal)
F. R. HARRINGTON, (Seal)
FRED SUTTER, (Seal)

Territory of Arizona, County of Cochise, ss.
Before me, E. G. Strickler, a Notary Public in and for the County of Cochise, Territory of Arizona, on this day personally appeared J. A. Hoover, F. R. Harrington and Fred S
